

OUR MISSION STATEMENT

The Enumclaw Expo and Event Association is a 501c3 non-profit organization. Our overriding goal is to celebrate our agricultural heritage while creating lasting memories, learning from one another, and providing entertainment for the community we live in.

The King County Fair will be organized to enhance four core values; Community, Agriculture, Education, and Entertainment. We will promote an appreciation for our agricultural heritage; provide education about the role agriculture plays in today's life, while providing hands on experience for our youth.

Outside of the Fair, Enumclaw Expo and Event Association will further enhance these goals by generating revenues targeted at continually updating and improving our 72 acre campus, resulting in grounds we are all proud of.

The Enumclaw Expo and Events Association will continue to staff people who share the vision of pride in ownership that comes with Enumclaw Expo and Event association.
